2)Payroll & HRMS

HRMS & Payroll Made Simple

Managing people and payroll doesn't have to be complicated. Our HRMS & Payroll system helps you handle everything from hiring to salary slips in one place. It's fast, accurate, and designed to make HR work easier for everyone

All-in-One HR Management

Keep all your employee details organized and up to date.

- Manage leaves, attendance, and employee records easily
- Automate day-to-day HR tasks and save time
- Use it anywhere — even from your mobile

Effortless Payroll & Compliance

No more manual salary calculations or tax worries.

- Process salaries in just a few clicks
- Auto-calculate deductions, taxes, and bonuses
- Generate payslips instantly and share securely

Smart Attendance & Shift Tracking

Track who's in, who's out, and who's on leave — all in one view.

- Supports biometric and mobile attendance
- Handle multiple shifts and rosters with ease
- Get automatic leave updates and approvals

Employee Self-Service (ESS)

Give your team more control and transparency.

- Employees can download payslips and tax forms anytime
- Check leave balance or apply for leave online
- All data stays safe with role-based access.
